

## BOAD AND THE CLIMATE

Application of social and environmental safeguards standards within the projects financed by BOAD

Promotion of mitigation and adaptation projects

Resources mobilization through partnerships with financial institutions and UNFCCC's financing mechanisms

Supported by Régional Collaboration Centre (RCC) Lomé for promoting CDM Projects

Accreditation at Global Environment Fund - Accreditation at Fund For Adaptation to Climate Change - Accreditation at Green fund

## THE REGIONAL COLLABORATION CENTRE LOMÉ (CRC) LOMÉ

BOAD - UNFCCC first Regional Collaboration Centre on Clean Development Mechanism (CDM) to improve the regional distribution of CDM projects by breaking barriers such as lack of resources and expertise, which prevent Least Developed Countries (LDC) to access finance climate through the CDM by :

- Providing direct support to governments, NGOs and the private sector to identifying and developing CDM projects in Africa ;
- Supporting technically regional actors (project developers, Designated National Authority) through the establishment of a platform for sharing knowledge and experiences about the benefits of the CDM ;
- Working closely with partners organizations which provide assistance to parties through other mitigation activities (NAMAs<sup>4</sup> preparation of INDCs<sup>5</sup> and readiness to Green Climate Fund).

## THE CLEAN DEVELOPMENT MECHANISM (MDP)

- Mechanism of carbon finance approved by the United Nations, operational and available to help LDCs to reach sustainable development while contributing to achieve the target of reducing Greenhouse Gas emissions (GHG) in industrialized countries.
- Sectors eligible CDM : Energy - Waste - Industrial processes  
- Use of solvent - Agriculture - Forest.

<sup>4</sup> including Nationally Appropriate Mitigation Actions

<sup>5</sup> Intended Nationally Determined Contributions
